

## Michigan Barn Preservation Network

MBPN's youth barn raising is a one-of-a-kind learning opportunity that provides information, exposure, and experience through a traditional community barn raising common in Michigan communities during the late 19<sup>th</sup> and early 20<sup>th</sup> centuries. Similar to husking bees, quilting bees, and other shared-work activities, neighbors depended upon each other to accomplish what they could not do alone.

### CREDITS & THANKS TO OUR SPONSORS

The design and construction of this 1/2 size 19<sup>th</sup> century barn timber frame model has been funded by a grant from the Amesby-Russ Mowby Fund of the Battle Creek Community Foundation.

The National Barn Alliance owns the model and is on loan to the Michigan Barn Preservation Network.

## Teamwork & Timbers

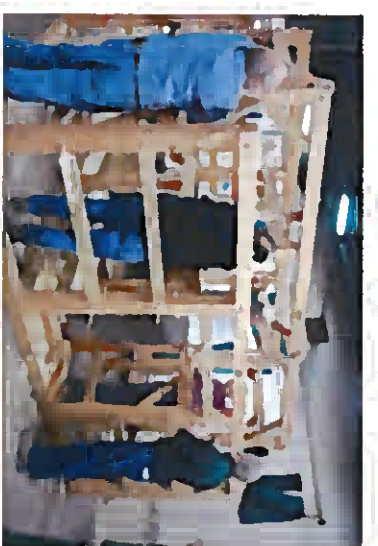

A one-of-a-kind learning experience for youth, ages 9 – 14 and the young at heart too!

# Teamwork & Timbers

Traditional timber frame barns and the teamwork that raised them.

Using a quarter-sized replica of an American mid-west timber-frame barn, participants will learn about the parts, the vocabulary, and the raising of this American building structure that framed barns, homes, and businesses of this time period. This educational experience provides Michigan youth and adults information and experiences about our agricultural heritage, the pride of craftsmanship, and a glimpse of what can happen when people come together to accomplish something that they cannot do alone.
